

The DANNAR 4.00 is the first all-electric Mobile Power Station® that utilizes a componentized modular design resulting in heavy-duty energy platform that is configurable for exterior and interior environments.

The DANNAR accomplishes clean and quiet work, eliminating the invasive aspect created by traditional, diesel fueled machinery. This versatile power-house replaces multiple single-purposes machines with one. Forklift, scissor lift, container loader, potable water delivery, lavatory service is just a beginning list of the warehouse activities the DANNAR accomplishes with zero-emissions. Options include remote, operator platform or climate-controlled operator cab. Customized task specific automation for pre-programmed work is another option.

Componentized modular design with Type I, II and III hydraulic tool circuits, to accommodate over 250 CAT®, Bobcat® and John Deere® attachments

Attachment flexibility

## **FEATURES**

- Half Megawatt (500 kWh) of energy storage in highcapacity BMW lithium ion battery packs
- Export panel is configurable with multiple 110VAC and 208VAC outlets, (optional 480 & 240 available)
- Type I, II and III hydraulic tool circuits, Variable flow & pressure
- Maintenance support system augmented by Ruggedized ODG R-7 VR Smartglasses
- See DANNAR Product Sheet for Expanded List of Features

THE FIRST ZERO EMISSION HEAVY-DUTY WORK VEHICLE, DELIVERING ON-BOARD EXPORT POWER TO WAREHOUSES.

## **SPECS**

- Dimension in inches:175L x 100W x 100H
- Weight:13,000 lbs.
- Compatible with over 250 different CAT®, Bobcat® and John Deere® attachments
- Top Speed (calibrate to lower levels):25 mph
- Towing Capacity: excess of 600,000 lbs.
- Ground Clearance: **15.6**"
- Submersible up to **four feet**

MANUFACTURED WITH PRIDE IN THE USA
