

PUBLIC V AGRICULTURE AIRPORTS FIRST RESPONDERS UNIVERSITIES WAREHOUSES

PUBLIC WORKS

The DANNAR 4.00 is the first all-electric Mobile Power Station® that utilizes a componentized modular design to revolutionize infrastructure development and public works response.

The DANNAR provides the fleet manager with a versatile daily maintenance, seasonal needs and emergency response, first of its kind machine. All electric, the DANNAR replaces the need for dieselfueled equipment, reduces moving parts from hundreds to tens, ultimately saving time and resources in operator training and maintenance hours. The DANNAR offers enough energy to operate at peak performance for at least eight hours a day, 365 days a year. There are many customizable features, such a fully remote, operator platform or climate-controlled cab.

Componentized modular design with Type I, II and III hydraulic tool circuits, to accommodate over 250 CAT®, Bobcat® and John Deere® attachments

Attachment flexibility

FEATURES

- Half Megawatt (500 kWh) of energy storage in high-capacity BMW lithium ion battery packs
- Export panel is configurable with multiple 110VAC and 208VAC outlets, (optional 480 & 240 available)
- Type I, II and III hydraulic tool circuits, Variable flow & pressure
- Maintenance support system augmented by Ruggedized ODG R-7 VR Smartglasses
- See DANNAR Product Sheet for Expanded List of Features

THE FIRST ZERO EMISSION HEAVY-DUTY WORK VEHICLE, DELIVERING ON-BOARD EXPORT POWER TO PUBLIC WORKS.

SPECS
